## PROFILE

Driven and meticulous, I am a Software Developer who thrives on developing cutting-edge software solutions. My proficiency lies in a diverse set of languages and technologies including Python, Flutter, SQL, Node JS, Rest APIs, and AWS Azure DevOps, enhanced by extensive exposure to full-stack development, AI, and cloud technologies through my experience working at Matalan and internships. Recognised for my adept problem-solving skills and quick adaptability to new technologies, I bring a blend of technical acumen and unwavering commitment. I eagerly look forward to joining a vibrant team, where I can contribute towards building superior, user-centric software applications, transforming conceptual ideas into functional digital reality.

---

## EMPLOYMENT HISTORY

Jan 2022 — Jul 2023

### Software Developer [Contract], Matalan

London

- Designed and developed functional and efficient software applications and systems to meet business needs.
- Wrote and maintained clean, scalable code in various programming languages like Java, Python, or C#.
- Participated in all stages of the application lifecycle, with a keen focus on coding and debugging.
- Collaborated with team members to define system requirements and functionalities.
- Performed comprehensive tests to identify and rectify any bugs or glitches, ensuring the smooth operation of our software.
- Created and maintained technical documentation for reference and reporting, promoting clear communication within the team.
- Worked closely with product and project managers, aligning my software development efforts with the wider company goals.
- Continually learned and stayed up-to-date on software development trends and technologies, supporting the team's continuous improvement and innovative culture.

Jun 2021 — Aug 2021

### Software Developer Intern, ITAF

- Worked collaboratively with senior developers to create software solutions using programming languages such as Java, C#, and Python.
- Conducted unit testing and debugging to ensure software quality and identify and resolve issues in a timely manner.
- Assisted in the design and implementation of new software features and functionality.
- Contributed to documentation efforts, including creating user manuals and technical specifications.
- Utilized version control software such as Git to manage code changes and collaborate with other developers.

Jun 2019 — Aug 2019

### Human Resource Intern, GB Railfright

London

- Undertook detailed analysis and research on industry trends, competitor activities, and operational efficiency.
- Supported in data gathering, analysis, and report preparation for senior management.
- Assisted with the development and implementation of new processes to enhance business productivity.

---

## EDUCATION

Sep 2021 — Jun 2023

### Computing and Information Technology, University of Wolverhampton

Wolverhampton

- 1st (79% in 3rd Year Project on Mobile App development)
- Distinction achieved in Advanced Web Development module
- Achieved the highest grade in the Big Data module.
- Acquired hands-on experience in Emerging Interactive Technologies.
- Achieved excellence in Databases and Advanced Databases modules.

Sep 2020 — Jun 2021

### Information Technology , London South Bank University

London

- Achieved excellence in Discrete Mathematics course, mastering the fundamentals of mathematical logic and combinatorics.

- Acquired a comprehensive understanding of Professional Practice, learning about ethical and legal issues in the IT industry.
- Demonstrated proficiency in Requirements Analysis and UCD, designing and evaluating user-centred software systems.

Sep 2019 — Jul 2020

Access to Civil Engineering, Lambeth College

London

Jan 2019 — Jul 2019

Maths and English GCSEs, South Quay

SKILLS	Proficient in Python, PHP, HTML, CSS, C, Flutter, Codeigniter, Laravel, and Django	Skillful	Excellent project management and organizational skills, demonstrated by balancing university coursework and part-time work.	Expert
	Typescript skills, preferably using node.js	Skillful		
	Experienced in Oracle/SQL databases and proficient in designing and implementing database systems using ER modelling and normalization techniques.	Skillful	Strong communication skills, demonstrated by presenting a project to a school audience and delivering good customer service as a waiter in a hotel.	Expert
	Knowledgeable in computer and enterprise networking, IoT systems, data analytics, and Microsoft packages.	Skillful	Effective team player and leader, demonstrated by leading a football team to a cup final and working effectively with university students on group assignments.	Expert
	Built several successful projects using various technologies, including a Treasurehunt app using Flutter, an AI data cleaning and analysis tool using Python, and a Job website using Laravel	Skillful	Skilled handyman, demonstrated by painting community halls and offices and mounting cupboards, beds, and tables for students.	Expert

## HOBBIES

I enjoy playing a wide range of sports such as football, volleyball and table tennis and regularly participate in outdoor activities such as walking.
